

What do you think will happen to the pumpkin and jack-o-lantern after Halloween?

They will get mashed and squished on their own.

They're going to melt and get white.

They are going to rot and get all moldy.

They are going to shrink into the ground.

It's going to turn into a carriage or car.

The pumpkin gets squished, and then you cover it with earth and it grows back.

They are going to get rotten.
